4

EASILY CUSTOMIZABLE

Capacity

2 x 15l

Dimensions (X x Y x Z)

47x52x82

Weight

56 Kg

Voltage

230V-50Hz

Power

300W

Maximum Versatility

Create your healthy and refreshing point in your Kiosk, Restaurant, Bar, Hotel, Convenience store or Service area.

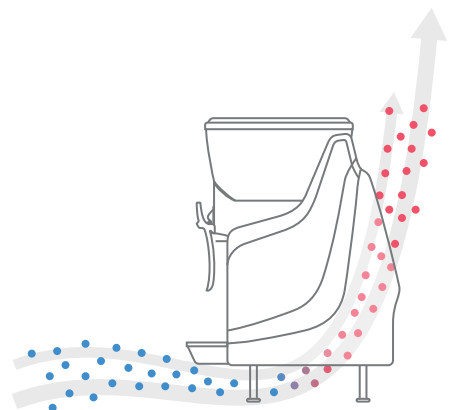

Touchless Tap

Serve your drinks by pressing the glass against the tap and take hygiene, comfort and safety to the next level.

Minimum Space, Maximum Performance

Thanks to the Vertical **Air Flow** system you can install V-Drink **without any clearance space** for ventilation.

Here's how we help clients to save money

Two counters with same space

Assume a net profit of \$60 per bowl at day

Vertical Air flow System:

Install machines one next to each other without clearance space. More bowls making profit.

Other Drink Coolers

Lateral Air flow System:

You need clearance for correct ventilation. Less bowls making profit.

\$720

Counter net profit per day

\$480

\$5.040

Counter net profit per week

\$3.360

\$21.600

Counter net profit per month

\$14.400

\$262.800

Counter net profit per year

\$175.200

Less Time Cleaning

Seal easily fitted on the **bowl** before mounting on the machine.

Clean the **touchless tap** in just one piece.
Disassembly not required.

Magnetic mixing system, **without seals.**
